

CIVIL REGISTRATION & VITAL STATISTICS & GENDER

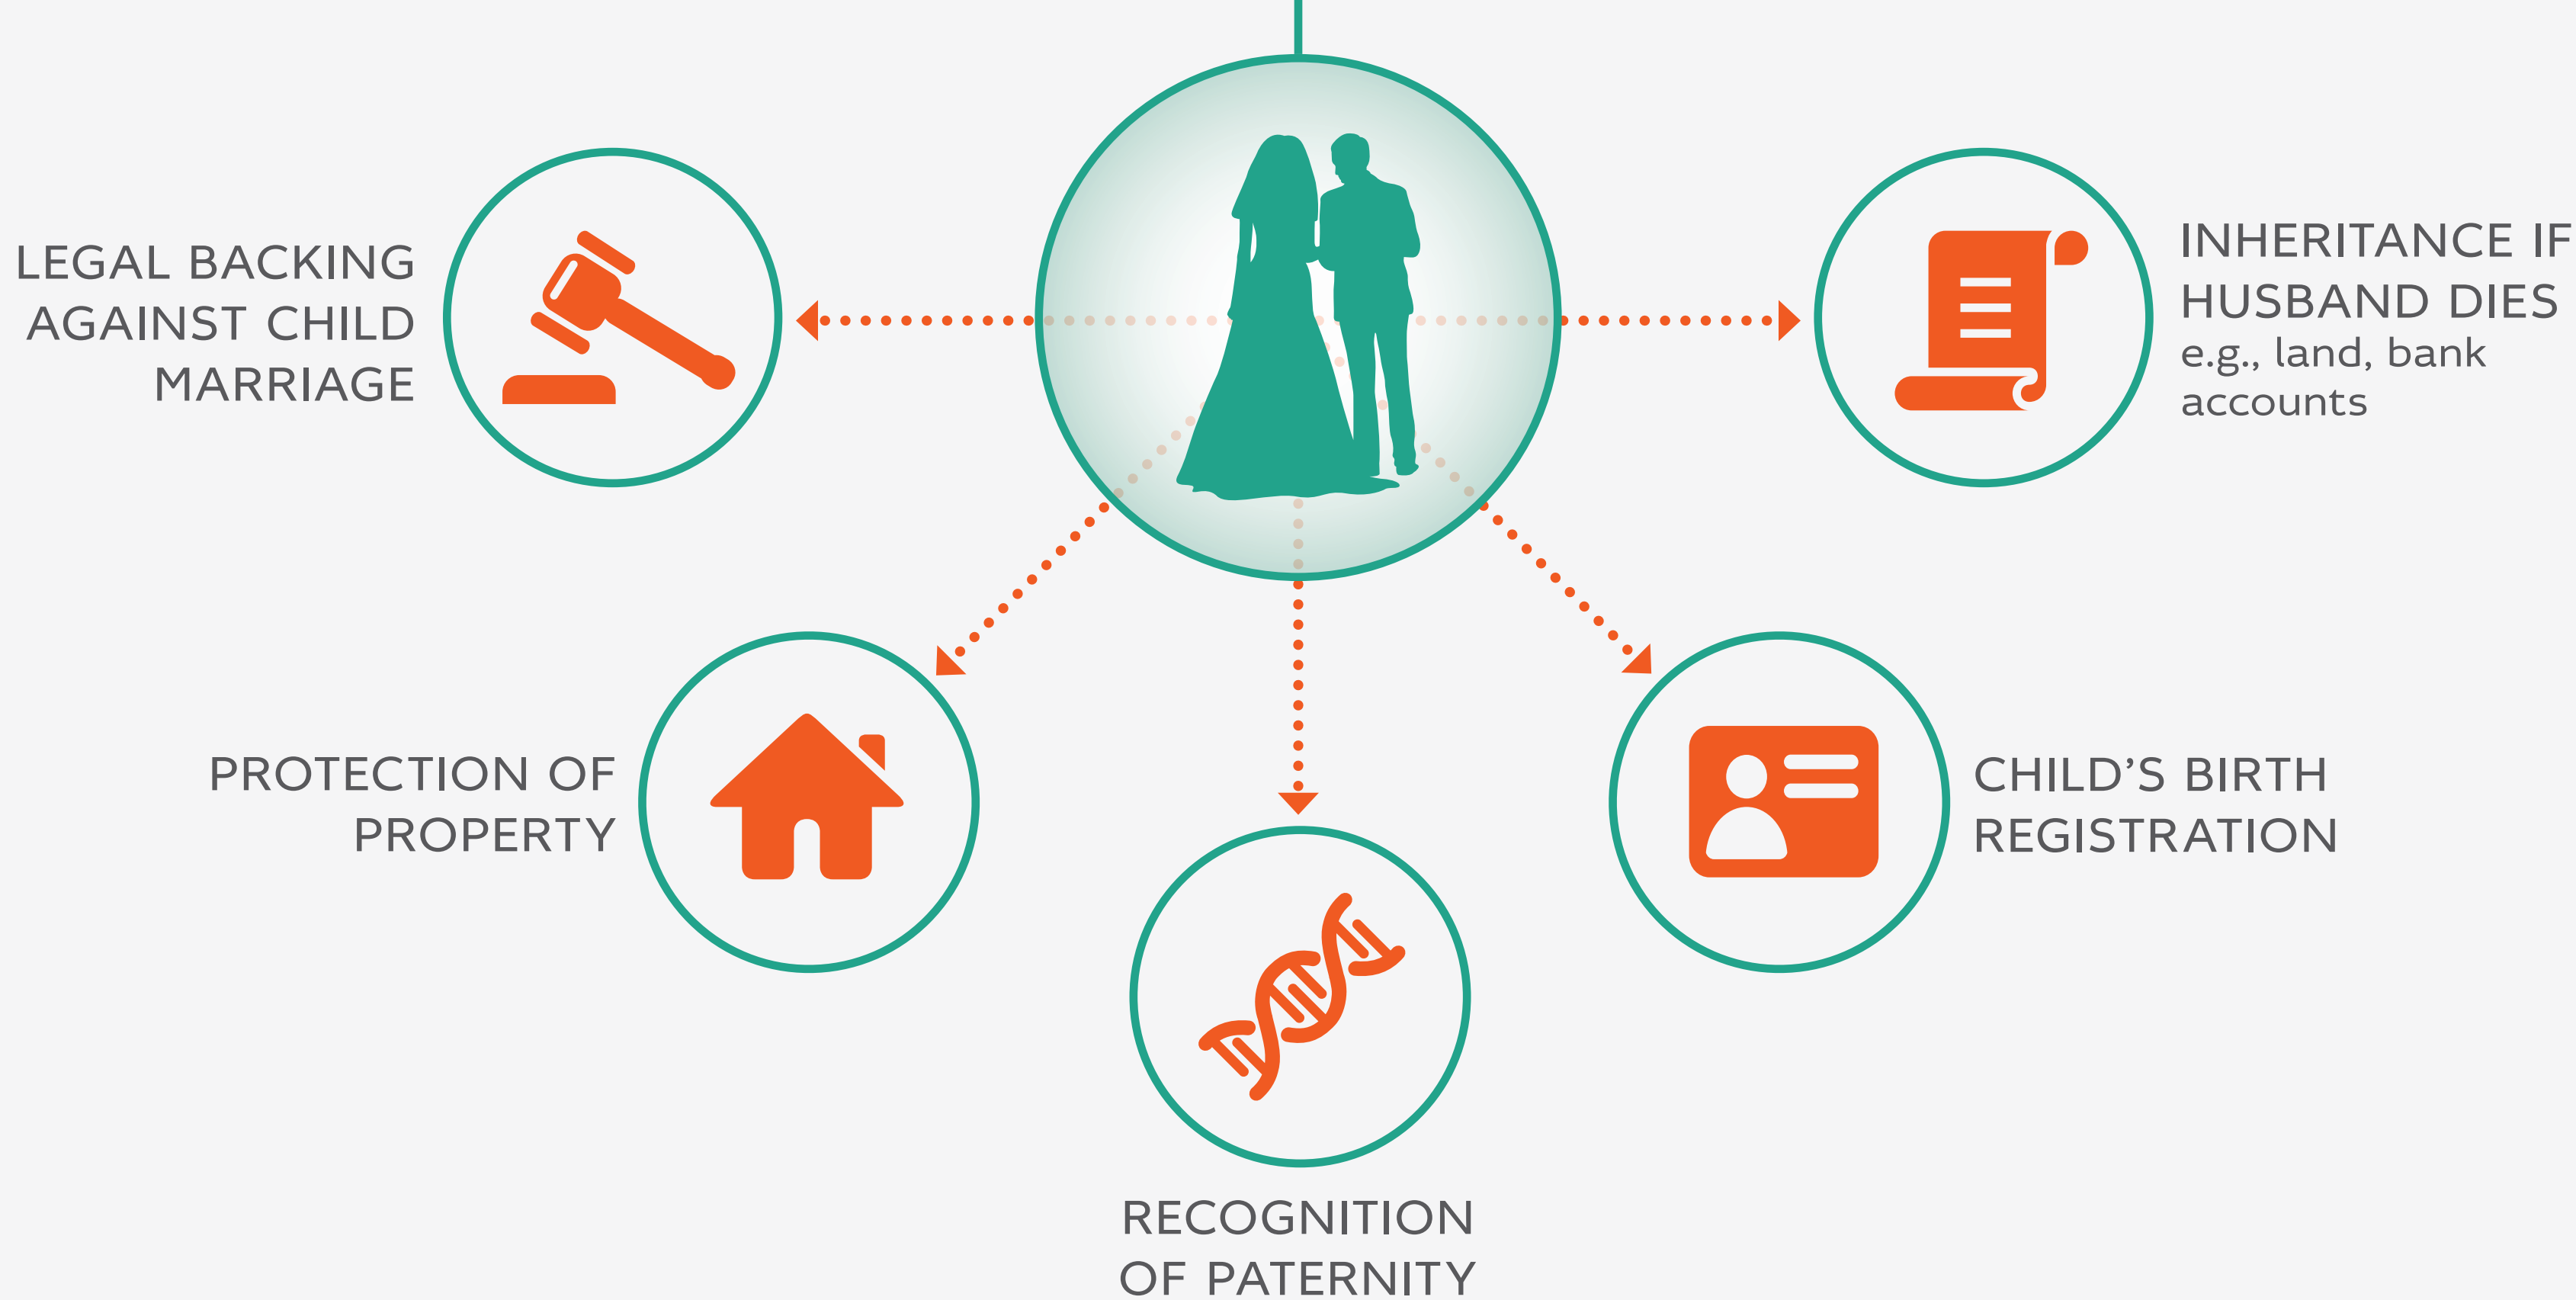

CIVIL REGISTRATION AND VITAL STATISTICS (CRVS) is a fundamental data system for countries that provides basic demographic and health information. It is also a critical enabler of access to services and participation in civic life for individuals.

IMPROVEMENT OF CRVS IS CRUCIAL FOR IDENTIFYING AND SOLVING GENDER INEQUALITIES

BIRTH REGISTRATION and LEGAL IDENTITY can help with...

MARRIAGE REGISTRATION can offer...

DIVORCE REGISTRATION can facilitate...

DEATH REGISTRATION can provide...

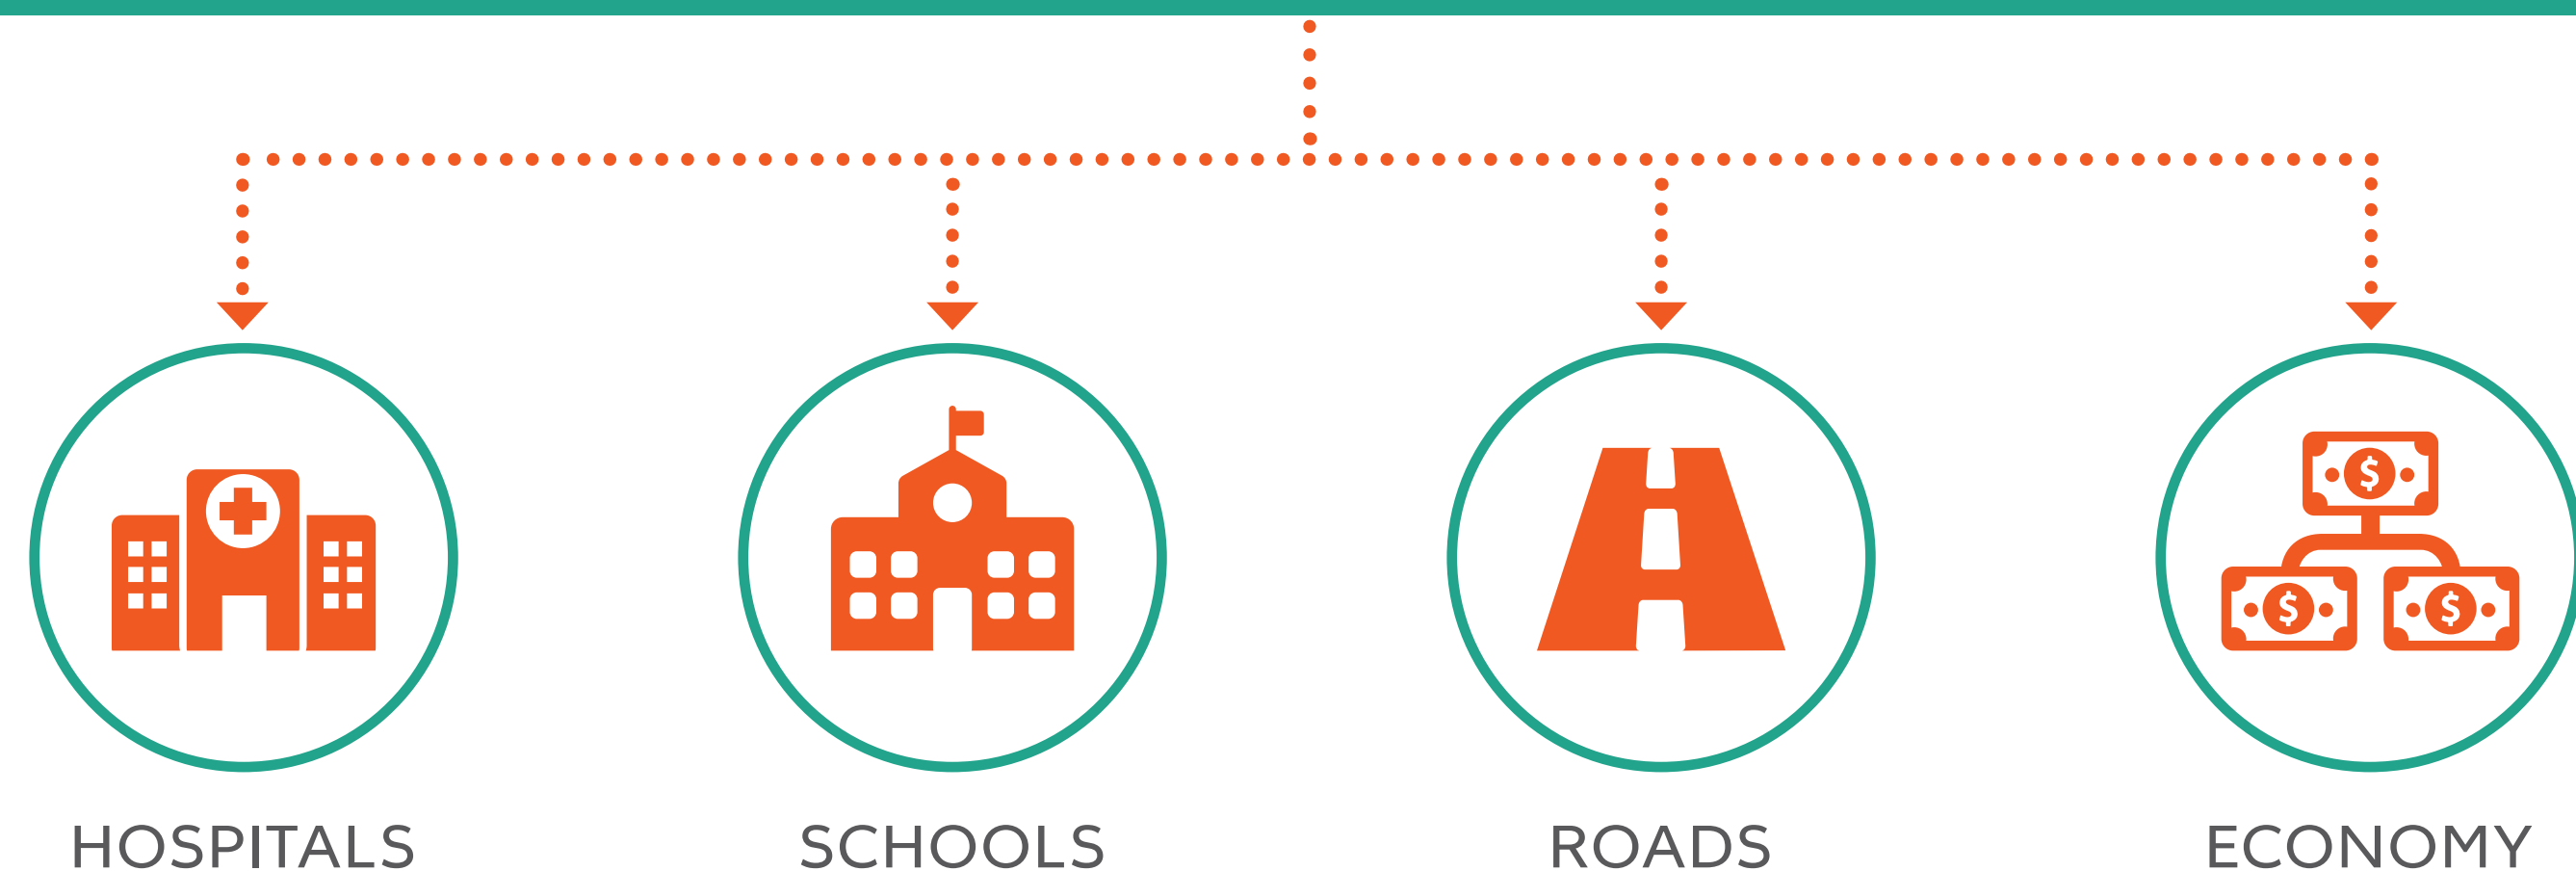

Girls and women benefit disproportionately if they are registered. At the same time, women are disadvantaged in their ability to access CRVS.

UNIQUE BARRIERS FOR GIRLS & WOMEN INCLUDE:

DISTANCE, COST, AND IN SOME CASES, THE REQUIREMENT OF A FATHER'S OR HUSBAND'S SIGNATURE ON OFFICIAL REGISTRATION DOCUMENTS.

IDENTIFYING & SOLVING GENDER INEQUALITIES IS CRUCIAL FOR THE IMPROVEMENT OF CRVS

A COMPLETE CRVS SYSTEM provides an accurate picture of the population and allows governments to plan for a successful future that incorporates the needs of girls & women.

GIRLS & WOMEN NEED CRVS AND CRVS NEEDS GIRLS & WOMEN

Data2X is working with partners to identify and develop strategies to remove gender-specific barriers to accessing CRVS.
